9 October 2023

Dear Parents and Caregivers

This letter pertains to the recommended device for 2024. BYO-Device must display attributes of durability, reliability, and longevity, tablets are susceptible to damage and have a high cost of repair therefore they are not supported by the school.

The device we are recommending for 2024 is the **HP Chromebook 11 G9 EE**.

The purpose of a device at school is for the sole purpose of learning. To promote the development of positive learning in an online space, student devices will be managed by the school. Managing devices ensures students are kept safe in a safe manner within an online learning environment.

We recommend the device not be set up prior to the beginning of the school year. If these devices have been set up prior to their school arrival, the school will factory reset as part of the management process. This will remove any accounts, data and prior configuration that may exist on the device.

Please note this device uses ChromeOS and these computers rely significantly on an internet connection.

Heathcote Appliances are offering this model \$459 including GST. This price also includes material damage insurance. This covers damages that may occur to the device for a period of 36 months from the time of purchase.

There are separate packages available. **“Package 2”** is the school’s suggested package of choice. The packages range from device only option, to an all inclusive option.

To take advantage of this offer from Heathcote Appliances, click or scan the right QR code to place an order to secure a device for 2024, Various payment methods and delivery options are available. Payment must be completed at the time of placing the order.

For further information on specifications of the recommended device or the minimum specifications for alternative devices for more information. Scan or click the left QR code.

Should you have any questions please feel free to direct them to the ICT Department via email at online@southwell.school.nz

Nga Mihi,

Haydn Stoevelaar
IT Manager
