Term 1, 2024

Years 1 & 2 Learning Overview

Dear Parents and Caregivers,

Welcome back to all our Junior School families, and a warm welcome to the new families who have joined the Junior School in 2024. We are excited to start the year with three Year 1 classes and two Year 2 classes.

Introducing the Year 1 & 2 Team

Mrs. Linda Tiffany (Dean) 1LT

linda.tiffany@southwell.school.nz

Mrs. Jodie Carter 1JC

jodie.carter@southwell.school.nz

Mrs. Louise Filipo 1LF

louise.filipo@southwell.school.nz

Miss. Katharine Gould 2KG

katharine.gould@southwell.school.nz

Miss. Bridget Coleman 2BC

bridget.coleman@southwell.school.nz

Your child's homeroom teacher will be your first port-of-call should you have any questions or queries. **Teachers are generally available in their classrooms from 8.00am onwards.** *If your child needs to be at school earlier than 8am, please note that the library is open, but there may not always be a teaching staff present.* Alternatively, teachers can be reached at the above email address should you wish to arrange a meeting.

We look forward to establishing an amazing partnership between students, parents and teachers.

Useful things to note about Years 1 and 2

Week Ahead

This will be emailed to Parents and Caregivers every Friday from the School Administrator. It is important that you are receiving this and that you read it carefully, as it has useful information about what is coming up in the week ahead. Teachers will also send out a note each Friday with class-specific information for the following week.

Learning Conferences

Learning Conferences will take place in Week 3, on the 5th, 7th and 8th of February (with the 6th being Waitangi Day). Please book online as soon as possible to get your preferred slot. This link has been emailed to you from the School Administrator. This is a fantastic opportunity for you to tell us about your child, your expectations, and a chance to ask any questions you may have about the classroom programme.

Uniform

It has been lovely to see our Year 1 and 2 learners ready for learning and smartly dressed in their uniforms. To remain sun-safe, our school hats are compulsory in Terms 1 and 4 and all children must wear their hats during break times. Please help us to return uniform items to the right family by making sure all uniform items are clearly named. This is very important for our younger learners who are still learning to identify and manage their belongings - especially hats and shoes!

Term 1 Junior School Trips

Term 1 is full of stimulating learning for all our Year 1 and 2 students - including year-group trips during Week 6.

Year 1 students will be heading to *Extreme Edge* to support learning about ourselves and our friends - including self management, growing independence, bravery, co-operation, and resilience.

Year 2 students will begin their Term 1 & 2 Inquiry into our school-wide Big Idea - Making Sense of Our World with a trip to *Kaipaki Petting Farm*. Year 2 will focus on recognising that all living things have specific requirements for growth and well-being.

Please keep an eye out for more trip information which will be emailed to you in the upcoming weeks.

Year 1 and 2 PE days

As we get to know one another, PE days for our Junior students will be flexible for the first 2 weeks of Term 1 - Year 1 and 2 students will need PE gear each day.

As we move into week 3, PE days will be set for each term. We will update families next week regarding requirements for PE each week.

Lunches/Snacks

Named water bottles are important especially during hot weather so please send a drink bottle along each day. Students will be able to access their drink bottle at any time of the day.

We will have a fruit and vegetable break each morning in addition to morning tea. Please provide your child with some sliced / peeled fruit or vegetables, or a small container of raisins or other dried fruit. **Please NO NUTS (we are a nut free school).**

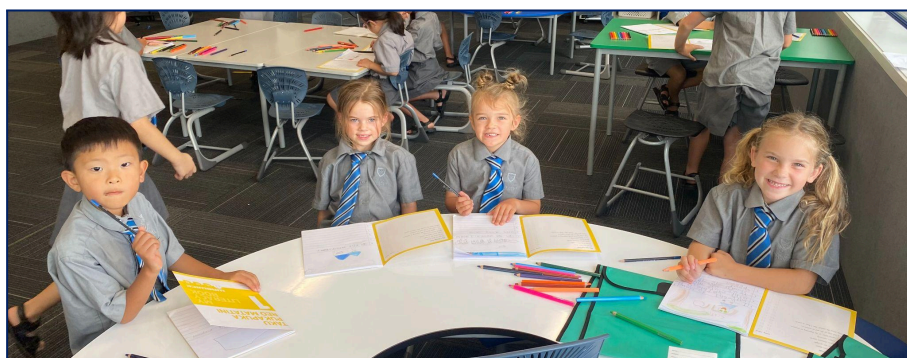

Learning for Term 1

Our Term 1 learning programmes have been carefully designed to optimize your child's learning and management of school life. This is assisted by:

- The establishment of **routines** and **independence** - a focus that is continually reinforced.
- A positive behavior programme focusing on 'good choices' and 'self- management'.
- Having your child at school on time enables them to have a positive start to the day. Ideally, children should arrive at school between 8.00 am - 8.20 am.
- Encouraging your child to return what they need to bring to class each day.

Our Literacy learning will occur in the first-morning block through to Morning Tea, followed by Maths, in order to utilize prime learning time.

After a long busy day, Year 1 children may be picked up from school any time after 2.30pm. This will help with the tiredness young children experience with our extra-long school day. However, teachers will still be running learning programmes with children who wish to stay until 3.20pm. After School Care will still be available for those who wish to use it. If your child is still waiting after 3:30pm to be picked up, we will automatically pop them into our After School Care programme.

In class, we are settling quickly into established classroom routines and learning programmes. As such we have included a brief outline of the learning taking place this term for your interest.

We hope that you will enjoy being a part of the Junior School family as we all work together to produce happy, focused learners.

Learning in Year 1&2

Literacy

Structured Literacy is an integral part of our classroom programmes. Children learn how sounds and symbols (letters) work together, building their foundational skills. This approach also emphasises vocabulary, fluency, comprehension, and spelling rules, equipping children with the necessary tools to become confident readers and writers.

Reading

In our reading journey, we start by introducing sounds to letter names. To reinforce learning we send these letters home on a ring. As children gain confidence with certain letter names and vowel sounds, we provide them with a decodable book. Some of these books will come home as part of our home learning programme, while other decodable books will remain at school. These texts are carefully selected to align with their learning throughout the week. Once children have mastered the foundation spelling and reading concepts, we introduce a variety of other traditional-style reading books to further enhance their learning at school.

Writing

In our writing sessions, we integrate Structured Literacy to help children express their ideas with confidence and encourage them to use words they already know, while also guiding them in sounding out and recording unfamiliar words. Alongside this, children receive explicit instructions and sequential spelling rules to strengthen their writing skills.

Mathematics

In Mathematics, students will be learning about Number with a particular focus on addition and subtraction. Emphasis is placed on using practical activities and knowledge-based games. In strand Maths we are looking at Statistics.

Inquiry - Science, Social Science and Art

During Term 1 and 2 all Southwell School students will be inquiring into our school-wide Big Idea - Making Sense of Our World. For Year 1 and 2 students, this learning will focus on recognising that all living things have specific requirements for growth and well-being. Through diverse experiences and activities, students will demonstrate their understanding, discussing and recording findings using various forms of literacy. Additionally, we will explore God's creatures artistically, expressing our discoveries through various mediums. This approach ensures a comprehensive understanding as we discuss, document, and creatively express our exploration.

Specialist Subjects

We are also lucky to have the support of our Specialist Teachers who teach Te Reo, Christian Education, Music, Physical Education, and Drama in Year 2. In Year 1, we work hard to limit the amount of changes in teachers for students. Year 1 students will still go to Physical Education and Music with the Specialist teachers and Chaplain will lead us in Christian Education into the Christmas Season.

Physical Education - Mr Norman and Miss McMaster

Playing Together

Students will explore the concepts of playing together with others and how to be a good teammate.

Let's play

Students will learn about fair play and sportsmanship by following and applying rules in different games and playing as part of a team.

To infinity and beyond!

Students will investigate the concept of space within sports, engaging in various games that emphasize invasive thinking and movements.

Ready Aim Fire!

Students will develop coordination, motor skills, and spatial awareness through the activities of throwing and catching.

Te Reo Maaori - Whaea Whetu Te Ua

Year 2 students will explore te reo Maaori through waiata, stories and hands-on activities relating to the world around them. This will include whaanau relationships, shapes, colours, and animals.

Christian Education - Reverend Canon Neale Troon and Reverend Matt Pickering

Year 1 and 2 students will be exploring the beginnings of faith and how we might best live in a world created for us. They will also prepare for the celebration of Easter through lessons that focus on important elements surrounding this event and some of the traditions that have built up over the centuries which they may participate in.

Performing Arts - special focus on Music

Year 1

Students will learn the difference between their speaking voice and singing voice. They will begin to learn to sing a range of folk songs individually and with others using mainly the pitches so and mi. Students will also start to recognise the difference between high and low and begin to be able to keep in time to the song.

Year 2

Students will continue working on establishing a tuneful singing voice. They will continue learning to sing a range of folk songs individually and with others using mainly the pitches, so, mi and la. Students will also recognise the difference between so, mi and la and identify the difference between ta, ti-ti (one or two sounds on a beat) and also za (rest).

Year 2 Suzuki Violin Programme

In Year 2, students will spend two terms learning how to play the violin in the Suzuki method. 2KG will complete this in Terms 1 and 2, while 2BC will be in Terms 3 and 4. You will receive specific information via email about the Suzuki programme.

Library - Mrs Penny Walch and Mrs Julie Huggins

In the Library we introduce the children to new books and stories, talk about the books they have read, and browse, issue and return books. We also teach the children the basic routines and skills which will ultimately enable them to use the library independently.

If you have any further questions, please feel free to contact us.

Thank you again for your support.
